

## Flexible Choice, 2TPOS OON Tier and Out-of-Area PPO (OOA-PPO) Formulary

*Last Update: 04/02/2024*

The following is a list of the drugs on the Flexible Choice<sup>1</sup>, OOA-PPO<sup>2</sup> and 2TPOS OON<sup>3</sup> tier formulary. The preferred drugs in the formulary are chosen by a group of Kaiser Permanente physicians and pharmacists known as the Pharmacy and Therapeutics Committee. The formulary applies only to outpatient drugs and self-administered drugs. It does not apply to medical service drugs or medications used in a hospital or surgery center or medications administered in a doctor's office or infusion center. The formulary does not provide information about your plan's specific coverage, limitations, or exclusions. For additional information regarding your pharmacy benefits, please consult your KFHP-MAS *Evidence of Coverage (EOC)* and/or *KPIC Certificate of Insurance (COI)*.

There are many brand and generic medications on the Flexible Choice, OOA-PPO and 2TPOS OON Tier formulary. In most cases, all your providers will prescribe a generic equivalent. As a Kaiser Permanente Flexible Choice or OOA-PPO member, the amount you pay for your prescription is determined by the tier (e.g., generic, preferred brand, non-preferred drug, specialty (if applicable) or non-formulary) along with where you decide to fill your prescription. You may want to consult your physician for a generic alternative that may cost you less or as a Flexible Choice member have your prescription filled at one of our convenient Kaiser Permanente medical center pharmacies.

Some plans have a separate specialty drug tier with a specialty tier copay or coinsurance, depending on your plan. Specialty drugs include self-administered injectables, medications that are typically high cost and medications that require special dispensing and/or monitoring. The details of your outpatient prescription drug benefit, including any specific limitations or exclusions, can be found in your *EOC* and/or *COI*. A listing of specialty tier drugs can be found at [kp.org/formulary](https://kp.org/formulary).

Under Option 1 of your Flexible Choice plan, you may fill your prescription at a Kaiser Permanente medical center pharmacy. Your Permanente physician can send most prescriptions electronically from his or her office directly to the pharmacy, where you can pick up your medication. If your prescription is for a non-preferred drug, your physician will need to request an exception to the formulary and document that the non-formulary drug is medically necessary for your treatment and that no formulary drug is suitable for you.

Under Option 2 of your Flexible Choice plan or under the Participating pharmacy network option (Par) of your OOA-PPO plan, MedImpact is the company Kaiser Permanente has chosen to manage the pharmacy benefits covered under your plan. MedImpact has a network that consists of local and national pharmacies. "Participating pharmacies" include:

---

<sup>1</sup> Kaiser Foundation Health Plan Mid-Atlantic States (KFHP-MAS) underwrites the in-network tier (Option 1) and Kaiser Permanente Insurance Company (KPIC), a subsidiary of Kaiser Foundation Health Plan, Inc., underwrites the out-of-network coverage consisting of the participating provider tier (Option 2) and the non-participating provider tier (Option 3) of the POS plan.

<sup>2</sup> The OOA-PPO plan is solely underwritten by Kaiser Permanente Insurance Company, a subsidiary of Kaiser Foundation Health Plan, Inc.

<sup>3</sup> The OON portion of the 2TPOS plan is solely underwritten by Kaiser Permanente Insurance Company, a subsidiary of Kaiser Foundation Health Plan, Inc.

- Costco
- Harris Teeter
- Rite Aid
- Walgreens
- Wegmans
- CVS
- Giant
- Kmart
- Safeway
- Wal-Mart

Not all locations within a pharmacy chain company are contracted with MedImpact; some are independently contracted. To verify if a pharmacy participates, please log on to **medimpact.com**. To obtain a complete list of participating pharmacies, call MedImpact customer service at 800-788-2949, 24 hours a day/seven days a week.

Under Option 3 of your Flexible Choice plan or under Option 3 of your Flexible Choice plan or under the Non-Participating out-of-network pharmacy (Non-Par) option of your OOA-PPO plan or 2TPOS plan, you may fill your prescription at any pharmacy that is not part of Option 1, Option 2, or the Par network. If you fill your prescription at an Option 3 or Non-Par out-of-network pharmacy, you should expect to pay for your prescription drugs and then submit a claim for reimbursement.

## How to use the formulary document

When you look through the formulary drug listing beginning on page 4, you will see that products available in a generic form are listed by their generic names. Drugs that are only available as a brand name product are listed in **BOLD AND ALL CAPITAL** letters, except where multiple branded products exist.

You can search the formulary drug list by using the “FIND” function in Adobe Reader, or by referencing the therapeutic drug category.

The first column of the chart lists the drug name. Please note that some drugs have multiple dosage forms. Examples of dosage forms are tablets, capsules, creams, injections, etc. Please note that not all dosage forms and strengths for a particular drug listed may be on the same drug tier.

The second column, “Drug Tier” will indicate what tier number the drug is in. Drugs on the formulary are categorized in one of the following three tiers:

Tier 1: Includes commonly prescribed Generic Drugs

Tier 2: Includes commonly prescribed Brand Name Drugs and higher-cost Generic Drugs

Tier 3: Includes all other Brand Name Drugs and a limited number of Generic drugs not included in Tier 1 Drugs or Tier 2 Drugs.

Please note that some plans have a separate specialty drug tier (Tier 4) with a specialty tier copay or coinsurance. The details of your outpatient prescription drug benefit, including any specific limitations or exclusions can be found in your *EOC* and/or *COI*. A listing of specialty tier drugs can be found at **kp.org/formulary**

Please remember that this list is subject to change and will be updated from time to time during the year. Any product not found on the list will be considered non-preferred.

## Restrictions on medication coverage

Some covered drugs may have additional requirements or limits on coverage. Please consult your *EOC* and/or *COI* for additional information regarding your pharmacy benefits, including any specific limitations or exclusions.

- **Limited distribution:** Some drugs may be subject to limited distribution or restricted access. A drug that is a limited distribution drug may only be available at one or a limited number of pharmacies.
- **Oral chemotherapy drugs:** Drugs that fall under the District of Columbia and State of Maryland Oral Chemotherapy Parity Act.
- **Quantity limit:** For certain drugs, Kaiser Permanente Pharmacy and Therapeutics Committee limits the amount of medication dispensed to a certain quantity per copay.
- **Zero Cost Share Preventive Drugs:** Drugs that may be covered at \$0 when written on a prescription.
- **Medical Service Drugs:** Drugs that may be covered under your medical benefit (physician visit or hospital visit). Medical service drugs require administration by a clinician or in a facility. They are not dispensed through the outpatient pharmacy.

**Key:** (Refer to “Restrictions on medication coverage” section, above, for definitions of these terms)

**LD** = Limited Distribution Drugs

**OC** = Oral Chemotherapy Drugs

**QL** = A drug with a quantity limit

**PRV** = Zero Cost Share Preventative Drugs

**MSD** = Medical Service Drugs

## **Nondiscrimination Statement**

It is the policy of Kaiser Foundation Health Plan of the Mid-Atlantic, Inc. (Kaiser Health Plan) not to discriminate on the basis of race, color, national origin, sex, age or disability. Kaiser Health Plan has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by Section 1557 of the Affordable Care Act (42 U.S.C. 18116) and its implementing regulations at 45 CFR part 92, issued by the U.S. Department of Health and Human Services. Section 1557 prohibits discrimination on the basis of race, color, national origin, sex, age or disability in certain health programs and activities.
